Get Trained

3 EASY Ways to Get Trained Conveniently

Are you prepared and trained for a natural disaster? Here are 3 EASY ways to get trained conveniently. Take a look at the following options available to you:

1. Draper CERT Training Class Registration

The Community Emergency Response Team (CERT) Program educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations.

Draper city is hosting a new hybrid-style CERT (Community Emergency Response Team). Students will have 12 hours of interactive online training that can be completed at your convenience. We are allotting a total of six weeks for students to complete the online course. The classroom portion will be taught on two separate eight-hour days consisting of skills only. For any questions regarding CERT contact [Captain Steve Darlington](#) (Program Coordinator) or [Erin Lytle](#) (Course Coordinator).

Take the [online class](#) at your convenience, then watch for registration for the hands-on practical skills portion. We will post when dates are scheduled for the next practical skills class.

Website with additional information: <https://www.draperutah.gov/627/CERT>

2. Ham Radio Training - <https://hamstudy.org>

3. Suncrest Stake Emergency Prep WORKSHOP: “Communications During the Disaster”

This Emergency Prep Workshop our Stake will be hosting for the Suncrest community will be focused on proper and efficient communications during a natural disaster. Bro. Eric Hansen will be teaching our 1-hour hands-on class. This workshop will prepare you and your family in how to properly communicate during/after a natural disaster with your Block Captain. In addition, Block Captain training. Everyone is invited!

This workshop is designed to prepare our community for the Communications Drill on the afternoon of 11/5. More details to come.

Stake Presidency Message

Just as Wards and Stakes have their own emergency preparation plans, we also encourage members of our Stake to create and implement a family emergency communications plan. Blessings and peace-of-mind await you as you do.
