EC3 2026 Temple and Family History Plan

Draper Utah Temple

Uniting families for eternity across generations is essential to the work of salvation and exaltation.

We will pursue this goal through the following family-centric activities:

1) Encouraging ward families to make temple attendance and family history activities a part of their lives.
2) Inspiring families to record and upload memories, images, mementos, etc., to their Family Search account, including sharing testimonies or conversion stories.
3) Making consultants available for classroom and in-home instruction and training.
4) Planning and hosting age-appropriate temple and family history activities.
